EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan Bornstein on May 27, 2004.

2. The application has been amended as follows:

IN THE CLAIMS:

Claim 5. In line 20, **delete** "d) wherein m is 1, Y is $-\text{CO}-\text{NH}-(\text{CH}_2)_6-\text{NH}-\text{CO}-$ and M is sodium; and"

Claim 5. In line 21, **delete** "e)", and **insert** ---d)---

Please add the following new claim 12:

---12. A composition as claimed in claim 5, wherein m is 1, Y is $-\text{CO}-\text{NH}-(\text{CH}_2)_6-\text{NH}-\text{CO}-$, and M is sodium.---

3. The following is an examiner's statement of reasons for allowance:

Lewis et al, GB 2,005,322, discloses a method of treating textiles comprising applying to the textile a water-soluble curable polymeric material in an aqueous medium, and simultaneously applying to the textile a compatible exhaustion agent (see abstract and page 1, lines 20). It is further taught by Lewis et al that a preferred curable

Art Unit: 1751

polymeric material is of the formula A) or B) (see page 1, lines 27-65 for the structures of formula A) and formula B)), and that preferred exhaustion agents include ionic materials, such as $(\text{NH}_4)_2\text{SO}_4$ (see page 2, lines 22-30). Specifically, note Examples 1-22. However, patentee differs from applicant in that Lewis et al does not teach or suggest in general a fabric care composition that contains an anionic polymer and a quaternary ammonium compound, as required by applicant in the instant claims.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Mruk whose telephone number is (571) 272-1321. The examiner can normally be reached on Monday-Thursday from 7:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta, can be reached on (571) 272-1316. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
